DEATH OF H. T. HOLYOAK

Slipping off the road when endeavoring to pass another car, a Dodge truck owned by Albert Coupland, of Bellevue, was turned over about 5:20 Wednesday evening, and H. T. Holyoak, 18-year-old Royal Bank clerk, who was riding in the truck, was thrown out and rendered unconscious. He never regained consciousness and passed away at 2:20 Thursday morning — Clarence Local Press.

At the time of the accident in which the Holyoak boy lost his life, his parents were enroute from northern Alberta to visit him. The body was taken north by Friday night's train for burial.

An inquest into the cause of death of the lad is being held.

ALBERTA COAL REACHING THE MANITOBA MARKET

According to Robert Cheshire, head of the coal department of the Hudson's Bay Company, bituminous coal from Alberta mines in the Crows' Nest Pass is already commencing to replace a considerable quantity of American steam coal on the Manitoba markets as a result of the encouragement to shippers provided under the recently granted federal subvention.

Mr. Cheshire, whose headquarters are in Winnipeg, is in the west at present making arrangements for the season's supplies of coal required by the various Hudson's Bay stores throughout the west and he will visit the mines in the Pass and in the Drumheller field before returning to Winnipeg.

While it is yet early to estimate the effect of the federal assistance on the volume of shipments from Alberta coal fields, said Mr. Cheshire, several good contracts in Winnipeg and other points in Manitoba have already been switched over from American steam coal to the Alberta bituminous product, and there is every evidence that the subvention will have the desired result of reclaiming the Manitoba market for Alberta coal producers.

NEW BARTHELMESS

PICTURE IS HIS

THIRD "TALKIE"

Following close upon the heels of the tremendous success of "Weary River" and "Drag," comes "Young Nowhere," the newest First National and Vitaphone starring production for Richard Barthelmess. It opens at the Bellevue theatre tonight.

Barthelmess proved a sensation in his first audible production, "Weary River," which is still breaking records throughout the country; then he followed that with "Drag," which proved highly popular with press and public.

"Young Nowhere" is entirely in dialogue. Frank Lloyd, who directed the first two Barthelmess talkies, wielded the metaphorical megaphone on "Young Nowhere."

Because of her lovely work in "Out of the Ruins," Marion Nixon was awarded the role of the girl in "Young Nowhere," one of the most coveted roles of the year. Bert Roach and Anders Randolph play important roles. The story was adapted to the screen by Bradley King from the short story by I. A. R. Wylie.

HIGH SCHOOL STUDENTS

Supplementary examinations will be held in Coleman in September. For further particulars enquire from A. J. KELLY, Secretary.

A Blairmore citizen left this week to spend his vacation in the Livingstone region. He took no stove along, as he said he expected to cook his meals on the mountain ranges.

SETS TO HOLD REORGANIZATION MEET

A meeting, which should be of interest to every veteran and returned man in this district, will be held on Sunday afternoon next at 3 p.m. in the Moose Hall.

The purpose of this meeting will be for the re-organization of the Blairmore Branch of the B.E.S.L. Canadian Legion, and Captain G. L. Hudson, of Calgary, will preside.

It is sincerely hoped that all ex-service men will be present. As there are a large number of returned men in this town, there is no reason why the Blairmore branch cannot be made one of the best branches in the province.

Just check up on some of the legislation the B.E.S.L. in Canada has been instrumental in having put through, also on other matters which they are trying to get in better shape, altogether working in the interests of the returned men.

Make a point to be present on Sunday afternoon at this re-organization meeting.

THE NEW DOMINION CABINET

Following is the list of the new cabinet, in order of precedence:

Hon. R. E. Bennett, prime minister, president of the privy council, secretary of state for external affairs and minister of finance.

Sir George H. Perley, K.C., M.P., minister without portfolio.

Hon. E. N. Rhodes, minister of fisheries.

Sir Gideon Robertson, minister of labor.

Hon. Hugh Guthrie, minister of justice and attorney-general.

Hon. H. H. Stevens, minister of trade and commerce.

Hon. E. J. Monod, minister of railways and canals.

Hon. E. B. Ryckman, minister of national revenue.

Hon. J. A. Macdonald, minister without portfolio.

Hon. Arthur Sauv, postmaster-general.

Hon. N. B. Murray McLaren (St. John, N.B.), minister of pensions and national health.

Hon. H. A. Stewart (Leeds), minister of national defence.

Hon. Alfred Duranleau, minister of marine.

Hon. Thomas G. Murphy (Neepawa), minister of interior and superintendent general of Indian affairs.

Hon. Maurice Dupre, solicitor general.

Hon. W. S. Gordon (Timiskaming), minister of immigration and colonization and minister of mines.

Hon. Robert Weir (Melfort Saskatchewan), minister of agriculture.

CATCH FISH WITH STONES

Eskimos may be a primitive sort of people, but the only mechanical devices employed for catching fish in the waters of the North-West Territories are made and used by Eskimo fishermen. The white men in the territories use gillnets and lines, but J. A. McDougal, district agent for the Department of the Interior at Fort Smith, in writing to the Dominion Fisheries Branch, reports that the Eskimos make "a rather elaborate trap from stones." No other mechanical means or traps, he says, are used in the fisheries of the territories. Mr. McDougal's report is one of several obtained by the fisheries branch in expanding its information as to the fisheries resources and possibilities of the Northwest Territories, which include within their boundaries such large lakes and rivers as Great Slave and Great Bear lakes and the Slave and Mackenzie rivers.

Mistakes

Glancing through a magazine recently the writer's attention was attracted by an article bearing the same title as appears at the heading of this column—"Mistakes." It was a short article, but two paragraphs in it stood out as important—worth while—worth passing on for the consideration of those who read this column from time to week.

After reciting mistakes made by "Great Men of Business," and the different ways in which they react to them, the article in question offered comment:

"Looking back over history, it would seem that mistakes, of themselves, are comparatively unimportant. All men make them. The important thing is how a man acts afterward."

There is sound philosophy in that observation. It is deserving of more than passing attention.

All people make mistakes. Not one of us is infallible. The real test is: Do we profit by them? Do we use them as stepping stones to real achievements; to the winning of success? Or are we embittered by them; disengaged; inclined to give up and let go?

When a business man makes a mistake, jeopardizes even loses, the saving grace is that he admits it, learns from it, and then begins to think of throwing up the sponge, contemplates suicide, or some other rash act, it is a confession that he was not really a big man after all; that he is lacking in stamina, will-power and true courage.

Experience is a hard taskmaster, a bitter teacher, but—it is a teacher, and a good one at that, because it is through experience that we learn.

All men make mistakes, big men as well as little men. Nor is it individuals alone who make them. Governments make them; communities make them; nations make them. They must pay for their mistakes, but they can also profit from them.

One of the mistakes of this present age is to confuse bigness with greatness, to confuse quantity with quality. Next year the census of Canada will be taken, and already communities are anxiously awaiting the figures to ascertain to how large an extent they have grown in population, each town and city hoping that they have outstripped their rivals. We have been giving more attention to the quantity of their citizenship than to the quality, rather than the quantity of their citizenship? The United States Census has just been completed, and we find some of their larger cities, while boasting of their growth in size, seriously regretting that they were not smaller by some thousands of criminals and others of an undesirable class. In their ambition to become big and bigger they have made the mistake of ignoring the quality of their citizenship, and neglected those social provisions which would make their communities big in the trust, highest sense.

It is not the manufacturer who, through mass production, is turning out an enormous volume of products who is the truly successful man and a benefit to his country. The truly successful man is he who produces quality products. Nor is it the farmer who is operating several sections of land in a more or less indifferent way who, in the long run, will prove the greatest. It is the farmer who is farming intelligently, who produces the best quality of grain, the best grade of stock, poultry and dairy products, with trees and flower and vegetable gardens, who is establishing a real home, making a lasting contribution to his country, and a success in his life work.

But to return to our theme, "Mistakes." All men make them. Do not be discouraged by yours. Remember, the important thing is how a man acts afterwards.

This is a comforting thought. You can retrieve your mistakes. If you had always been right during the past five or ten years you might be much better off financially today than you are. But you have those experiences to guide you now, and you can profit from them if you will.

But, and here let us quote the second outstanding paragraph in the magazine article to which reference has been made. It reads: "Don't make the most serious mistake of all, that is to think about your mistakes."

Forget them, except to profit by them. Don't brood over them; don't let them discourage or embitter you; don't weaken; don't regard them as irretrievable disasters. Be up and doing; forget them; use them to rise to greater heights and a larger success.

Would Depорт Communists

Makes Remarkable Recovery

U.S. Congress Is Urged To Take Necessary Steps

Representative Hamilton Fish, Jr., in a radio address from New York, urged that congress take appropriate steps to deport all alien agitators and Communists affiliated with the Third International.

"We have tolerated them and their criminal activities too long," he said. "Let them go forth, or be deported back to their native land."

Conrad Fish, who is chairman of the special committee investigating Communist propaganda in the United States, asserted that what the Communist leaders do in Russia is solely the business of the Russian welfare.

"What the emissaries of the Soviets do in the United States of America, however, is our business," he added.

Book Agent—Sir, this encyclopedia will tell you anything you want to know.

Citizen—Is that so? You turn to the page where it tells who killed Cock Robin and read it off to me.

An Old Remedy

that never loses favor. Minard's Liniment has been in use for fifty years. A sure test of quality.

Elevator Contract Is Let

A contract for the excavation and pile foundation work for the proposed government 1,000,000-bushel capacity grain elevator to be built at Lethbridge, Alberta, has been let by the governor-in-council. The Nelson River Construction Company at Winnipeg, was the successful tenderer, with the lowest bid of \$62,292.

Time Element In Cancer

Different Periods Of Life Have Bearing On The Trouble

A curious time element in cancer is described by Sir George Lenthal Chettle, British cancer authority. He is chief surgeon of King's College Hospital, in London, England, and is attending the British Medical Association meeting in Winnipeg.

There is one time when previously harmless stages of growths are likely to become cancer rather suddenly. This is in the same relative period of life for both men and animals.

In a recent article, Sir George said, "That other some factor, as yet unknown factor or agent may enter the body just at the critical time and cause cancer, or that the different parts of the whole cycle for a continuous process, and one part passes naturally from one stage to the final catastrophe of cancer."

The first stage is most prevalent from the late twenties, the second stage takes form in the late thirties and early forties. The change into cancer occurs in the late forties and early fifties of life."

Guard Baby's Health in the Summer

The summer months are the most dangerous to children.

These infants, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the normal remedies he is used to can be applied. What must be done to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to babies as Dr. Robins' Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine men. No more than 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Repair Brock's Monument

New Arm and Hand Piece Placed In Position

Brock's monument is again entire, and the great arm and hand point out over the lake toward the northern shore. Recently Hon. George S. Henry, Minister of Highways, and government members of the Niagara Park Commission made an inspection of the finished job, and the scaffolding was removed.

Carved out of a single stone weighing three tons, the massive arm and hand piece was placed in position. The old arm was taken to Hamilton and wired together to serve as a model for the new one. The old arm was broken in a storm two years ago.

It Will Prevent Ulcerated Throat

At the first symptoms of sore throat, which presses ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little water to it and gargle. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who are periodically subject to quinsy may thus make themselves immune to attack.

Large Organ In Paris

Having 4,800 pipes, one of France's largest pipe organs was recently dedicated in the huge Salle Pleyel, a concert hall in Paris. The instrument has 71 stops. Its concealed machinery is controlled by 750 wires contained in one cable connecting the organ with a chamber under the stage.

Have Minard's Liniment on your shelf.

Put To Strange Use

"It's a funny use to make of it," commented Dr. C. H. Best, co-discoverer of insulin with Dr. F. G. Banting, on the report that the London Society for the Study of Inebriety is using insulin for the treatment of delirium tremens. Dr. Best explained that an overdose of insulin is equivalent to an overdose of alcohol.

Operated Under Difficulties

Doctor Performs Serious Operation On Board Ship With Crude Instruments

A cook's carving knife, a pair of pliers borrowed from the carpenter, a bottle of Holland gin and a needle and linen thread, saved the life of a seaman stricken with appendicitis, and as a result Dr. David R. Robbins, Los Angeles surgeon recently was presented with a huge silver loving cup by the Planet Steamship Company.

A little more than a year ago Dr. Robbins and his wife left Los Angeles on the steamship "Noorderdyk" for Germany, where the doctor was going to study for a year. He left all surgical instruments at home, intending to buy new ones in Germany.

Three days out of Panama, the "Noorderdyk" received an S.O.S. from the steamship "Corvus" saying that Henry Lohse, 21-year-old sailor, was stricken with appendicitis.

The "Noorderdyk" steamed to the "Corvus" and when they met, Lohse was transferred to the "Noorderdyk." Dr. Robbins was asked to save the man's life.

Dr. Robbins borrowed a carving knife from the cook, made the incision and with the pliers removed the appendix. He then sewed up the incision with a needle and thread borrowed from his wife and disinfected the wound with Holland gin. A piece of rubber tubing from a shower bath was used for drainage. As a result of the operation, Lohse is pale and hearty, hauls on the main brace and lustily sings, "Blow the Man Down."

Because he used such strange instruments, Dr. Robbins refused to accept any pay for the operation, stating that the operation under such strange conditions might not succeed.

However, the steamship company did not forget Dr. Robbins' deed on their return. When he returned to Los Angeles from his year of study in Germany he was presented with the silver loving cup.

Start Long Trail Ride

Party Of Britshers Undertake Long Journey Through Rocky Mountains

Starting on a trail ride that has never before been attempted, Sir Reginald G. Parker, Baron of London Bridge, S. C. T. Pitt Rivers, of Englefield, and J. Wilson Parry, of Salop, England, left the Banff Springs Hotel recently for a transmountain ride to Fort Hope, B.C., with the possibility of continuing from that place to Vancouver by the same mode of travel.

The route they are following takes them past Spray Lakes, by the Spray River to Palliser Pass, then down Palliser River to the Kootenay. At the first crossing of the Kootenay, they will be received by Capt. Palliser. They will cross the Kootenay, then Tiger Pass to the Columbia River. After crossing the Columbia at Wilmer, they will follow Toby Creek to Toby Pass, thus crossing the Selkirk mountain and will descend the Duncan River. From Nakusp to Edgewater they will travel by boat, then cross the First Valley Pass to reach the Okanagan, Princeton and Port Hope. Some sections of the trail they will travel have not been packed for twenty years, so some trouble will be experienced getting through. The whole party consists of the three principals mentioned, Sir Reginald's chauffeur, a guide and two men. Eleven pack horses constitute the train.

Persian Balm—Invaluable to the whole family. To the mother, a favorite aid to cleanliness. To the child a soothing salve. Adds to the father, a splendid hair tonic and cooling shaving lotion. Persian Balm tones and refreshes the skin. Makes it soft, smooth, supple and white. Indispensable to daily toilet. A little gentle rubbing and it is absorbed by the tissues, making the skin truly rose-leaf in texture.

Saskatoon's Growth

Approximately 10,000 names will be added to the voters' list in Saskatoon riding, figures compiled by enumerators reveal! The total will likely be in the neighborhood of 29,000. The urban polls are expected to mount from 13,335 in 1926, to about 22,000 this year, indicating the substantial growth in Saskatoon's population.

Saskatchewan Wheat Pool

According to the latest report the Saskatchewan Wheat Pool has a membership of 82,290 farmers. During the year ended May 31st, the provincial organization handled through its own elevators 87.2 per cent. of all pool grain—this being said to be the high water mark of co-operative grain handling.

Interest in mail and travel aviation in Argentina is growing rapidly.

Minard's Liniment removes Warts, relieves Bunions.

Don't Let Constipation Lead You Into Serious Illness

ENo's FRUIT SALTS

Serious rectal troubles, piles, paroxysms, hemorrhoids, are frequently the result of using cheap cathartics.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO in a glass of water every morning, tones up and sweetens the entire system.

ENo's FRUIT SALTS

Importance Of Rubber Industry

Canadian Rubber Products Exported To Many Countries

Now-a-days the world moves on rubber, and this does not apply to automobiles alone. According to a recent return of the Canadian Government the people of Nigeria, in June, bought 300 pairs of shoes with rubber soles from Canada. Barbados took 3,020 pairs and Trinidad 6,955 pairs.

Although Canada is not a producer of raw rubber, the rubber industry is of much importance and rubber products are exported to many countries of the world. In June the export of Canadian automobile tires exceeded \$1,000,000. The largest buyers were New Zealand, British South Africa, Belgium, Argentina and Brazil.

Douglas' Egyptian Liniment is remarkable in its quick, effective action. Relieves instantly burns, sprains, toothache and neuralgia. Invaluable for sore throat, croup and quinsy.

Poultry Losses

Twenty-Six Million Dollars Lost Annually Through Disease

Twenty-six million dollars is the price paid by farmers and poultry raisers for loss through diseases in poultry flocks annually according to recent estimates. Most of this loss is caused by the internal parasite Poultry Husbandman, much of it preventable. A good deal of it, points out, can be eliminated by keeping young chicks away from adult birds and on absolutely clean soil.

Big Cut In Naval Costs

H.R. Hon. A. V. Alexander, First Lord of the Admiralty, announced in London recently that the British naval building programme for 1928-29 by an estimated \$12,000,000. Mr. Alexander made the announcement in reply to a question about how much naval costs had been reduced since the present government took office.

Cut Down Food Wastage

—by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Central Full" Packs in sheet form for less exacting uses. At grocers, druggists, stationers,

NEW CABINET IS ANNOUNCED BY PREMIER

Ottawa, Ont.—The following is the list of the new cabinet in order of precedence:

Hon. R. B. Bennett, Prime Minister, President of the Privy Council, Secretary of State for External Affairs and Minister of Finance.

Sir George H. Perley, K.C.M.G., Minister without Portfolio.

Hon. E. N. Rhodes, Minister of Fisheries.

Senator Gideon Robertson, Minister of Labor.

Hon. H. H. Stevens, Minister of Trade and Commerce.

Hon. Hugh Guthrie, Minister of Justice and Attorney-General.

Hon. R. J. Manion, Minister of Railways and Canals.

Hon. E. B. Ryckman, Minister of National Revenue.

Hon. J. A. MacDonald, Minister without Portfolio.

Hon. Arthur Sauve, Postmaster-General.

Hon. Col. Murray MacLaren, Minister of Pensions and National Health.

Hon. H. A. Stewart, Minister of Public Works.

Hon. C. H. Cahan, Secretary of State.

Hon. D. M. Sutherland, Minister of National Defence.

Hon. Alfred Duranleau, Minister of Marine.

Hon. Thomas G. Murphy, Minister of Interior and Superintendent-General of Indian Affairs.

Hon. Maurice Dupre, Solicitor-General.

Hon. W. A. Gordon, Minister of Immigration and Colonization and Minister of Mines.

Hon. Robert Weir, Minister of Agriculture.

In announcing the personnel of the new cabinet, Premier R. B. Bennett made the following statement:

"I will administer the department of finance until such time as arrangements can be made for a successor to be completed, which will not be until after the short session. That session will be called at the earliest date legally possible."

"The Hon. Gideon Robertson at my urgent request becomes Minister of Labor." Senator Robertson administered the department during the serious unemployment of 1920 and 1921.

Lost Prospectors Found

Discovered After Spending Twenty One Days in Northland

The Pas, Man.—Harry Cairns, prospector, of Baker's Narrows, and his 15-year-old son, Harry, lost 21 days in the northland wilds, bound safe and well last Thursday. They arrived here in the cockpit of a Vickers Vedette plane, piloted by Sgt. Tourgis, R.C.A.F.

The long search is over, a search that called upon the best brains of the wilderness to map out and carry through a search that even veterans of the trail found baffling for days and which terminated eight miles from the copper claims camp of the prospectors.

For 21 days father and son tramped the burnt-over country, wallowed in the muskeg and fought on, ever hoping that they would strike a friendly trail or a landmark they knew. On the first five days they were devoured by hunger, stones. For the first five days they had no food and knew no shelter, then they came upon blueberries nearly ripe.

They constructed a shelter of spruce boughs, using bits of string to pull together their tattered clothes, and waited for the warm sun to ripen the berries. George the boy, was failing, his boots had given out and his feet were sore. Without matches they had no fire for signals nor for warmth at night. During all that time, close as they were to the railway, they heard no locomotive whistles and saw no signs of a living creature.

Then they heard men shouting in the bush while they waited on a rocky point of a strange lake and hoped to signal long flying planes. A minute later, E. R. Paton, veteran prospector, and Will Caldwell, came upon them. They were taken to their camp.

Jap Warships For Trouble Zone

Tokio.—Four Japanese destroyers steamed from the base of naval station for the coast of Asia in the Yangtze river valley. The warships were ordered to proceed to Hankow, well up the Yangtze owing to the serious situation which has developed along the valley since the outbreak of Communal disorders in Hunan and Kiangsi provinces.

W. N. W. 1650

Lack Of Moisture Detrimental To Crops

Much Uncertainty Exists As To The Probable Yield

Ottawa, Ont.—"Although the western crop is generally well advanced in the filling stage, there is still much uncertainty as to the probable yield," states the crop report issued by the Dominion Bureau of Statistics.

Lack of moisture in Saskatchewan and southern Alberta and damage from rust in Manitoba and southeastern Saskatchewan are features of last week's reports. Alberta crops alone have registered an improvement in the past two weeks, the large central area being again benefited at the last week-end by good rains.

Cutting of early wheat and barley is common in all three provinces, with indications that harvest will be general in a week or ten days.

The weather has again been hot and dry, while central Saskatchewan polity reported only 10 per cent on the last day of the month. Effective precipitation fell only in central Alberta.

Rust infection varies greatly with date of maturity, variety, and stand of the crops. Although future weather conditions will have an important effect there is every indication that the damage will be light on early maturing, light crops. But heavy on the good crops maturing later. The telegraphic report from the Dominion rust research laboratory at Winnipeg for this week reads as follows:

"In Manitoba, hot dry weather of past week has hastened maturity of all cereals. Cutting of stubble is now general in central and southern part of province. Losses from stem rust will be heavy in about sixty per cent of fields of common wheat in area included within radius of sixty miles from Winnipeg."

Because of hot, dry weather, stem rust has not increased rapidly in Saskatchewan but has spread northward to Fortinair and southwest to Shaunavon. Severity of infection about twenty per cent on common wheat in eastern Saskatchewan. Durums have only traces of stem rust. No stem rust reported in Alberta."

Plans To Visit Argentina

Prince Of Wales May Pay Visit To South America Next Year

London, England.—The Prince of Wales who, among his many other roles, has been called the British Empire's "best travelling salesman," plans to visit Argentina and Brazil next year, it became known recently.

The visit of the Prince to Buenos Aires will be for the particular purpose of opening the British trade exposition.

The first official announcement came from Buenos Aires when Ambassador Donald MacLeay informed President Irigoyen that the Prince of Wales would make the visit.

"It has been announced that the British heir will extend his visit to Brazil, but it was not known whether he would visit other Latin-American states."

Reports that the Prince would visit the United States next year have been definitely denied.

Famous Bands May Come

Endeavor To Secure Musical Attraction For 1931 White Fairs

Brandon, Man.—Another outstanding band may appear on the western circuit of the Class "A" exhibitions in 1931. At the recent meeting held in Regina, it was the opinion that at least two famous bands might be open to engagements and communities are being opened now with these organizations. The Royal Scots Guards and the Bosses of the Barn, the last-named a well-known civilian band in the Old Country. The Coldstream Guards and the Royal Air Force have played at engagements in Western Canada within the past five years.

Soviets Support Chinese Reds

Moscow.—"Pravda," mouthpiece of the Communist party, sounded a clarion call to the proletarian masses and Communist parties throughout the world to support the Chinese revolution. In each factory of enterprise and in every part of the world, the paper said, there should be established committees for enforcing the policy of "hands off the Chinese revolution."

Awarded Goethe Prize

Vienna.—Prof. Sigmund Freud, world famous psychiatrist and scientist, was informed he had been awarded the Goethe prize, the greatest scientific and literary distinction in Germany.

To Attend Bar Conference

Eight Judges and 126 Lawyers Sail From England

Southampton, Eng.—Eight judges and 126 lawyers who comprise the party of British representatives to attend the forthcoming conference of the Canadian and American Bar Associations at Toronto, and Chicago, are ready for Canada aboard the steamer "Empress of Athabasca." Viscount Dunedin heads the judicial party. Attorney General Sir William Scott and Sir John Simon, who headed the Indian Statutory Reform Commission, are among the lawyers.

Heavy Wheat Carry Over

Vancouver Port Has 7,651,765 Bushels Of Last Season's Crop

Vancouver.—The new crop year of 1930-31, for the port of Vancouver, started with 7,651,765 bushels of wheat in storage, a carryover from last season's crop record, to the weekly report of the Vancouver Board of Harbor Commissioners. Since August 1 to date, exports from Vancouver total 701,185 bushels. The railways report 367,000 bushels of old-crop wheat moving towards Vancouver.

BUREAU TO AID IN KEEPING TRADE MORE STABILIZED

Montreal.—The gravity of the business depression with consequent unemployment and lack of consumer demand confronts Canadian business with the necessity of establishing a research and administrative bureau composed of representatives of the government, the universities and the business interests of the country, whose duties should be to keep a perpetual watch on business development within Canada to anticipate possible trade depressions sufficiently in advance to take preventive measures, said Joseph T. Crowley, president of the Retail Merchants' Association of Canada, in convention here recently.

Federal, provincial and municipal governments are the bodies most capable of creating employment, said Mr. Crowley. In his address, their work could be more intelligently planned if they knew in advance what was likely to happen in business circles. In other words, to impede trade depression, these bodies could to advantage so plan government works as to absorb the shock of the unemployment in certain commercial enterprises, thus sustaining employment and consumer demand.

Explanations are not lacking for the reduced volume of business during the last six months, said Mr. Crowley. He cited the excess amount of wheat held over from last year, the stock market crash, over-production, the natural business cycle and the increase of unemployment.

"Unemployment," said the president, "is influenced by social psychology. When one group causes suffering from forced economy, the disastrous effect of such custom is easily seen."

While admitting the influence of world conditions upon Canadian business, yet generally speaking, so long as our farmers do a reasonably good job of farming, and factories do an equally good job of manufacturing and transportation agents the same, each taking advantage of modern methods, inventions and facilities, it is difficult to understand with the amount of money in the country remaining reasonably constant, why things as hard times or trade depression should overwhelm us with such distressing regularity, said Mr. Crowley.

"Today," he continued, "we actually have farmers producing more foodstuffs than they can sell and factories producing more goods than they can sell, each in actual want of the other."

Impressive Sky Line

Latest picture of Toronto's evergrowing waterfront showing prominently the Royal York Hotel and the Bank of Commerce building. Other structures easily noticed are the Temple and Robert Simpson buildings, Sterling Towers, old and new Union Stations, Northern Ontario, Canada Trusts, Metropolitan, Dominion, Bank of C.P.R. buildings, the Bank of Hamilton and the heating and power plant of the Union Station.

WILL APPEAR IN MOVIES

This is the most recent portrait of Kathleen Greenwood, daughter of Right Hon. Arthur Greenwood, Minister of Health, in the MacDonald Government, and one time head of the Department of Economics at Huddersfield Technical College. Miss Greenwood is adopting the movies as a career.

Tragedy At Royal Regatta

Racing Yacht Is Sunk In Collision And One Life Is Lost

Cowes, Isle of Wight.—A steward was drowned and a racing yacht, the "Lucilla," owned by J. Lauriston Lewis, was sunk in collision at the start of the royal regatta events. The King, aboard the "Britannia," witnessed the tragedy.

The "Lucilla," manœuvring with the 12-foot boat for the getaway, was hit by A. A. Paine's boat, the "Lulworth," and went to the bottom in three minutes. The "Lulworth" rescued the survivors of the "Lucilla's" crew.

When the crew of the "Lucilla" came ashore it was stated that William Saunders, a steward, had lost his life.

The King saw the accident from the "Britannia" which at the time was leading in the race for big yachts.

The "Britannia" won the race, which was excitingly close throughout and thereby scored her 200th victory.

As the "Britannia" swept across the line the King could be seen standing on the deck smoking a cigarette, evidently pleased with his victory. At sight of him there was renewed cheering and waving of hats and handkerchiefs from the throng ashore.

Will Recover Plane

Bring Back "Plane Abandoned By MacAlpine Party Last Year"

Edmonton—Off to bring one of the sun-Fokker aeroplanes abandoned at Cambridge Bay, in the Arctic, last September by the ill-fated MacAlpine party to this city, Pilot W. J. Buchanan, of the Western Canada Airways, Limited, left here in another of the firm's big machines on Wednesday afternoon, August 6. He is accompanied by T. Gilmour, mechanic.

Pilot Buchanan expects that the trip will take about three weeks, but this depends upon the condition of the machine. In case it has been damaged during the long spell in the north, it will have temporary repairs and then flown to Winnipeg; on the other hand, if it is found to be in working order, it will be brought to Edmonton.

Heavy Gold Imports

Montreal, Que.—Total gold imports to this country from New York since the stock market crash, over-production, the natural business cycle and the increase of unemployment.

"Unemployment," said the president, "is influenced by social psychology. When one group causes suffering from forced economy, the disastrous effect of such custom is easily seen."

"Are the reports true that you are going to have a bumper crop in the west this year?"

"It will be a bigger crop than last year," Premier Bracken replied, "but smaller than 1928. The estimates run all the way from \$25,000,000 bushels to 400,000,000 bushels. It is too early yet to make an accurate forecast, but the total will probably be nearer the smaller figure."

The premier intimated that there were more hopeful signs already for the marketing of this new big harvest, so that it would not be an added embarrassment to the Pool.

"The increase in the price of wheat by 9 cents in the last two or three days," he said, "is due partly to the report of severe drought in the middle western states, bad marketing conditions in France and to an extent to the dry weather in the west."

"The initial payment of the Pool to be \$1 a bushel," Premier Bracken was asked. "Now that wheat is below a dollar what will the payment be?"

"That's a matter which comes along under the jurisdiction of the Pool, and the banks from whom the pools," he said.

"The initial payment during the past few weeks has been 70 cents for No. 1 Northern, with lower figures for lower grades."

Destitute Britshers Returning

Hundreds Who Went To U.S. Now Anxious To Get Back To Homeland

London, England.—The police at all British ports have been informed by the New York authorities that hundreds of destitute Britshers are hiding there waiting for a chance to stow away on homeward liners, according to the London Daily Herald.

Announcement was made in open court at Southampton to this effect, and at all ports where trans-Atlantic ships call special vigilance measures are being taken to arrest stowaways, while all ships out of New York are being searched for them.

The stowaway wave is due to the unemployment situation in the United States, whilst thousands of Britshers who went there last year high prospects good in that country. Now, the only anxiety of these Britshers seems to be to get back to their homeland again.

Many thousands are spending the little money they managed to save in the United States in returning by cargo steamers; others are working their way across. Some of the returning workers have savings in Britain, but the majority will be dependent on relatives.

Nine stowaways were arrested on an Anchor liner when she reached Glasgow last week-end. Seven were found on the "Mauretania" and "Plymouth," while twelve were discovered on the "Minnehaha" during the voyage to Britain.

There is no indication in regard to the constituency Premier Rhodes will represent. It is understood, though, that steps are being taken in this matter.

Hon. H. H. Stevens, who was defeated in Vancouver Centre, will be a candidate in East Kootenay. M. D. McLean, elected as a Conservative in the constituency, has resigned to make way for Mr. Stevens.

The five constituencies in which a lapse of two weeks must intervene between nomination and polling day

—in case of a contest—are East Kootenay (Hon. H. H. Stevens), Fort William (Hon. R. J. Manion), Neepawa, Man. (Hon. T. G. Murphy), South Temiskaming (Hon. W. A. Gordon) and Melfort, Sask. (Major Robert Weir).

Ministers without portfolio receive no extra emoluments from the Crown, and consequently Sir George Perley and Hon. John A. Macdonald will not have to seek re-election. Senator Robertson will continue to occupy his seat in the Senate, as arrangements are made for the constituency for which Premier Rhodes, of Nova Scotia, will sit in the Commons, the elected member will resign and write for a by-election in that riding will be issued to bring about the entry of Mr. Rhodes into the Commons.

WRITS ISSUED FOR FEDERAL BY-ELECTIONS

Ottawa, Ont.—Writs for by-elections necessitated by appointments to the new Conservative cabinet have been issued.

Nomination day in all instances except in the case of Premier E. N. Rhodes, of Nova Scotia, will be Sept. 2. Polling day is named for September 2 in 10 constituencies, and for September 5 in five ridings where, under the Dominion Elections Act, two weeks must intervene between nomination and polling days.

Announcement of the issue of the writs was made by Premier R. B. Bennett. The statement came from the new prime minister following the first meeting of his cabinet after taking office earlier in the day. A preliminary discussion engaged the balance of the 40 minutes' initial sitting of the newly-appointed cabinet. In political circles no opposition is expected in any constituency, and in that eventuality no by-elections will be held.

"There is no indication in regard to the constituency Premier Rhodes will represent. It is understood, though, that steps are being taken in this matter.

Hon. H. H. Stevens, who was defeated in Vancouver Centre, will be a candidate in East Kootenay. M. D. McLean, elected as a Conservative in the constituency, has resigned to make way for Mr. Stevens.

The five constituencies in which a lapse of two weeks must intervene between nomination and polling day

—in case of a contest—are East Kootenay (Hon. H. H. Stevens), Fort William (Hon. R. J. Manion), Neepawa, Man. (Hon. T. G. Murphy), South Temiskaming (Hon. W. A. Gordon) and Melfort, Sask. (Major Robert Weir).

Ministers without portfolio receive no extra emoluments from the Crown, and consequently Sir George Perley and Hon. John A. Macdonald will not have to seek re-election. Senator Robertson will continue to occupy his seat in the Senate, as arrangements are made for the constituency for which Premier Rhodes, of Nova Scotia, will sit in the Commons, the elected member will resign and write for a by-election in that riding will be issued to bring about the entry of Mr. Rhodes into the Commons.

Will Be Of No Benefit

Lumbermen See No Benefit In Washington Tariff Ruling

Ottawa, Ont.—Lumbermen in British Columbia and the Ottawa Valley express the opinion that the announcement from Washington that all saved lumber and timber, if not further manufactured or dressed on one side, will be admitted to the United States—will not have much effect on Canadian lumber.

The view of leading lumbermen is that the Washington ruling is only a clarification of the tariff which carries with it no particular benefit to the industry from a Canadian standpoint.

Population Of United States

Census Figures Show That Inhabitants Now Number 125,728,373

Washington.—The first complete preliminary census figures showed continental United States to number 125,728,373 inhabitants.

The total figure contains an estimate for one Pennsylvania township, returns from which are not complete.

Owning possessions add 14,772,689, making a grand total of 137,501,561.

The total population increase of the 48 states and the District of Columbia was 17,018,253.

Given Good-Will Sword

Ottawa, Ont.—Emblematic of goodwill and friendship, a 300-year-old Samurai sword was presented to His Excellency Viscount Willingdon, recently, by Senji Suzuki, one of the party of seven prominent Japanese business men now on a tour of Canada and the United States. The ceremony took place at Rideau Hall, the vice-regal residence.

Technical education in Saskatchewan will be promoted by a new technical college at Saskatoon which will afford accommodation for 1,000 students.

THE SWING OF THE PENDULUM

How tourist traffic is swinging in the direction of Canada is illuminatingly told in a letter received by Hon. George S. Henry, Minister of Public Works and Highways for Ontario, from the secretary of the Capital Tour Association, an organization of United States hotel men.

The letter makes a comparison between the inquiries received by this organization from prospective tourists in 1925 and 1929, during the touring months of July and August only.

The following percentage figures show which localities were preferred: 1925—New Jersey, 25; Canada, 20; New England, 15; New York and Lakes, 10; Virginia and South, 5; miscellaneous, 25.

1929—Canada, 20; Virginia and South, 25; New York and Lakes, 15; Pennsylvania, 10; New Jersey, 5; miscellaneous, 15.

Mr. Henry states that inquiries received by his own department indicate a big tourist trade this year, and most residents who take to the highways at all can find evidence pointing the same way.

TROUBLE FOR THE

HITCH-HIKERS

Who has not observed with interest, oftentimes with annoyance, the growth of the hitch-hiking movement throughout this country? Motorists of all classes are not at all averse to performing their daily good deed, but usually there are reasons for passing the hikers on the highways.

The annoyance seems to be registering elsewhere. In New York state the matter has come to a head with a bill introduced into the state legislature aimed at making the practice unlawful. "It shall be unlawful," says the bill, "for any person to stand in a roadway for the purpose of stopping a private vehicle to solicit rides from, or to solicit from or sell to occupants of such vehicles." This will hit others besides hitch-hikers, it is noted.

BUSINESS LOOKS UP

With the return of the Conservative party to power, faint signs of prosperity are looming into the public gaze. For instance: the monthly report of city police disclosed an increase in revenue for July made up largely on fines for contravening the motor vehicles act. The city treasury was enriched by \$74.50, while the province received \$35.50 as its share of the loot.

There were 56 cases listed on the books, the motoring public paying \$105.00 in fines, an inebriated gentleman adding \$20.00 to the kitty, and a by-law case of \$2.00. The report was accepted and heartily approved by council on Monday night.—Drumheller Mail.

FINE ORGAN IN
NOVA SCOTIAN HOTEL

One of the most magnificent organs in Canada is a feature of the new Canadian National Railway's hotel at Halifax, the Nova Scotian. It was built by Casavant Frères, St. Hyacinthe, Quebec, and is playable from a separate cabinet made by the Azolian Company, with which Duo Art records reproduce the playing of noteworthy organists. The organ has three manuals with a range of thirty stops for the great, swell, pedal and choir. The action is electro-pneumatic.

COBBIN HAPPENINGS

(From Our Own Correspondent)
Mr. and Mrs. Joe Legimus are rejoicing at the birth of a son.

Mr. and Mrs. Walter Almond were visitors to Lethbridge on Saturday.

Mr. and Mrs. M. Joyce and sons, Charlie and Jim, are holidaying at the coast.

Mr. and Mrs. W. Stone and family have left for Calgary by motor, where they plan spending their holidays in Vancouver.

Mr. Barney Lyne, who has acted as assistant in the local store of Burns & Company, has been transferred to Natal. Barney has been a Corbin resident all spring.

The Corbin highway has undergone extensive repairs during the past few weeks. Most of the places that develop into bad spots during rainy weather have been surfaced with gravel.

Mr. and Mrs. C. Shaw and daughter Jean started off on their holidays last Saturday. They plan spending about two weeks touring around the Banff-Windermere trail, thence to Edmonton and back.

Dr. and Mrs. Elliott, accompanied by their son "Bubble" and daughter Betty, have left for a motor trip around the Banff-Windermere highway. They expect to be away about three weeks. Dr. Thompson of Yahr, is relieving Dr. Elliott here.

Friends of Mr. and Mrs. Frank McKenzie will be very glad to hear that a daughter was born to them on July 25th in California. Both Mr. and Mrs. McKenzie were very well known here, having been former residents of the town.

A truck load of Number Six Mine Colored Giants challenged the local ball players to a game last Wednesday evening. A large number of fans turned out to witness the game. The coons kept all unlockers laughing with their comic repartee, and also incidentally beat the Corbin team 22 to 12.

Greyish clouds and a slight drizzle did not prevent the tra's from being at Corbin station sharp on the stroke of 8 o'clock to take the crowds of eager children and grownups on their annual pilgrimage to Cold Springs to enjoy the miners' picnic. A collection taken up several days previous enabled the picnic officials to have the privilege of treating one and all to the pop, ice cream, etc., that they could wish for. The usual number of races, contests of skill and baby show formed the programme. A dance platform, situated under the evergreens, was continually occupied by the young people. Prize winners during the sports were as follows: Boys' race under five—F. Roberts, first; B. Collett, second. Girls' race, under five—Jean Gereon. Boys' race, five to eight—Davy Grieve. Girls' race, five to eight—Marjorie Dorman. Boys' race, 8 to 11—Ned Petrunick, first; W. Dornan, 2nd. Girls' race, 8 to 11—Frank Petrunick, 1st; Frank Elms, 2nd; R. Halpeny, 3rd. Married men's race—Frank Winters, 1st; Jimmie Stevenson, 2nd. Hundred yards open—Walter Elms, 1st; Frank Winters, 2nd. Tug of War, five a side—H. Peters, 1st; J. Polmyne, J. Vasek, 2nd. Horse shoe throwing, singles—Tom Grieve, 1st; Ben Carter, 2nd.

COWLEY HAPPENINGS

M. A. Murphy and family were Corbin visitors Wednesday.

Charles Base, of North Fork, is on the sick list, we are sorry to say.

Miss Margaret Gilmore, of Lille, is spending a few days vacation with her grandmother, Mrs. McEwen.

Mr. and Mrs. George Ritson and Mrs. Billie, of Lethbridge, are renewing acquaintances in the district.

Mr. and Mrs. Lionel Peel and children, of Corbin, who have been holidaying in this district, have returned home.

George Webber, of Heath Creek, made several entries for his fine herd of Ayshire cattle at the Pincher Creek fair.

The constituency conference of the Women's Institutes of the Pincher Creek and Rocky Mountain constituency will be held at Pincher Creek on the 4th of August.

William Bennett, who is operating the McEachern ranch north west of Landbreck, entered several fine specimens from his herd of Hereford cattle at the Pincher Creek fair.

We regret to say that, while hunting, Albert Cleland had the misfortune to fall from a hay rack and break his collar bone. At present he is favorably progressing in the Hillcrest hospital.

Gus Shamron, who owned and operated a sawmill in the Heath Creek district for a number of years, has sold the outfit to Albert Yago, who moved it down to his place in Tennyson district the early part of the week, where he will engage in sawing lumber.

A high percentage of the Cowley students who wrote the public school leaving exams this year were successful. Grade VIII returns came this week with Dorothy Stainsby, Rosalie Perreault, Melvin Black, Sandy McEwen, Jack Cowin and Alvin Murphy all passing.

Cutting of fall wheat is in full swing here now. An estimate of thirty-five bushels per acre is placed on some of the fields. A large acreage will be sown to fall wheat in this district again this year. The early sowing is already up and nicely carpeting the fields with green.

Toll & Arden Limited, Calgary stock brokers, have assigned.

Help Wanted!

EASY WORK — BIG PROFITS
START IN BUSINESS FOR YOURSELF IN YOUR OWN HOME TOWN AND BE INDEPENDENT. A PLEASANT AND PROFITABLE BUSINESS OF YOUR OWN AT WHICH YOU CAN MAKE

IT'S WISE TO CHOOSE A SIX

**From first cost
to re-sale value
it's wise to choose this Six!**

IT'S wise and economical to choose a Chevrolet Six! For the new Chevrolet is a six-cylinder car—with all the advantages of greater smoothness, comfort, speed and hill-climbing power which nothing less than six cylinders can give. Yet, priced as low as \$635 at the factory, Chevrolet Six is actually one of the lowest-priced cars you can buy! And this great Six costs no more for gas—costs no more for oil—costs no more for tires—costs no more for upkeep than any other car on the road today.

In addition to giving you smoother, faster performance now, Chevrolet's modern features—such as low suspension, longer wheelbase, lengthwise-mounted springs, new Fisher Bodies, plush upholstery and smart appointments—assure higher re-sale value for your car when you come to turn it in.

Come in and see us—today—for a road demonstration. Ask about the General Motors Owner Service Policy, the most complete service policy in the industry—and the G.M.C., General Motors' own deferred payment plan.

This advertisement not inserted by the Alberta Liquor Control Board or the Government of the Province of Alberta.

Two girls, Augusta Engleson and Marjorie Dunn, aged 15 and 16 respectively, were drowned in the Old Man river near Taber on Thursday afternoon last.

Mr. and Mrs. Arthur Buchan, formerly of Blairmore and Pincher Creek, now residents of San Francisco, passed through Blairmore on Wednesday, enroute to visit the former's brother at Pincher Creek. Mr. and Mrs. Buchan have been away from this district for about thirteen years.

The Gebo Coal Company, in connection with the development of their properties in the Mountain Park area, will erect a briquetting plant to cost in the neighborhood of \$100,000. Anthracite coal in the form of briquettes will be shipped to the eastern market by this firm for the first time.

SIDE HILL GOUGERS ARE ONLY MYTHS

The side hill gouger, whose legs on the left side are worn shorter than those on his right through continual perambulations around the slope of a circular mountain and the wampus which always goes backwards up a hill and yodels like a Swiss climber when he gets to the top, are after all only myths painted by gibb-tongued guides upon the credulous imaginations of visitors to the mountains.

This, at least, is the conclusion reached by Richard W. Westwood, of Washington, D. C., secretary of the American Nature Association, who, with a number of members of the association, has just finished an extended trail trip through the mountains of Jasper Park.

"At Maligne Lake," said Mr.

Westwood on his return to Jasper Park Lodge, "we were told we would find the side hill gouger and the wampus on their home grounds. We found, however, no tracks going uphill backwards nor any trail running in circles around the mountains."

"What we did find around the largest glacial fed lake in the Rockies," continued Mr. Westwood, "were chipmunks which had left their trees and lived in the ground like gophers, and seagulls, which had forsaken the sea for this far inland retreat. But perhaps our most remarkable discovery was to come upon the nesting grounds of four rare birds, the Arctic horned lark, the rosy finch, the golden crowned sparrow and the timberline sparrow, all within a radius of one square mile in a meadow above the lake."

HELP TO HOMEMAKER

For the married man who thinks he cannot get along without a drink, the following is suggested as a means of freedom from the bondage of the bootleggers.

Start a saloon in your own home. Be the only customer. (You will have no license to pay). Give your wife ten dollars to buy a gallon of whiskey, and remember there are 60 drinks in a gallon. Buy your drinks from no one but your wife, and by the time the first gallon is gone she will have \$23.50 to put in the bank and \$10.00 to start business again. (She can throw in two drinks on the house). Should you live ten years and continue to buy booze from her, and then die with snakes in your boots, she will then have enough money to bury you decently, educate your children, buy a house and lot, marry a decent man and quit thinking about you entirely—Exchange.

Makes no difference how small a fish you catch, the photographer is prepared to enlarge it to the biggest ever known.

Hartley Upham tells this as the story of the closest Scotchman he ever heard of: "Just think! When there's a crowd at the station and the people are standing in a queue waiting for their tickets, he always goes last, so that he can keep his money in his pocket as long as possible."

Roy MacEachern has arrived in the city from Toronto to spend a month's vacation with his parents, Mr. and Mrs. J. S. MacEachern. Mr. MacEachern has a responsible position with the Canadian Bank of Commerce at the head office, Toronto, having been rapidly promoted in recent years.—Lethbridge Herald.

Grading of the new road connecting the South Fork-Lee Lake trail with the main highway at Burns, is nearing completion. We understand that attention is also to be paid to various sections of this heavily travelled trail between Lee Lake and the old Wolstenholme ranch. When gravelled, this trail will afford an ideal outing drive to some of the finest camping resorts in Alberta, including Kelly's at Castle River, Mill Creek, Carbondale and South Fork rivers, as well as the already very popular Lee Lake.

Barney Stitt, one time resident of Coleman, and who a year or two ago was elected mayor of The Pas, Manitoba, was elected as Conservative member for the federal constituency of Nelson, Man., and his brother, J. H. Stitt, was elected for Selkirk.

SAFETY -- at ANY speed

With the new Firestone Heavy Duty Gum-Dipped Balloon Tires you have a wide margin of safety at ANY speed. Built in advance of today's car requirements, they withstand rougher usage than any car on any road at any speed can give them.

Firestone Heavy Duty Balloons are made of Gum-Dipped cord construction—the strongest and safest method known. They have a deeper safety tread, extra side-wall thickness and two extra plies of Gum-Dipped cords just beneath the tread to absorb road shocks. They are the strongest, safest, toughest tires that Firestone has ever built.

Make your car safer for travel. Equip it with a set of new Firestone Heavy Duty Balloons. See your nearest Firestone Dealer today.

"GUTTA PERCHA" GUM CUSHIONED

This tire will do more for you

Figure the longest wear you have ever had from any tire of equal price . . . then add 47 1/2% more resistance to the tread. This is a rough method of estimating the wearing ability of the "GP" Gum Cushioned Tire with its new tough "Resisto" tread. And then there is the wonderful protective principle of Gum Cushions inside the tire—a feature known to thousands of satisfied car owners. Available now at all "Gum Cushion Tire Stations".

Summer Colds

Almost everybody knows how Aspirin tablets break up a cold—but why not prevent it? Take a tablet every time you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

WORLD HAPPENINGS BRIEFLY TOLD

In a recent month 12 tons of freight were carried by air from the Netherlands to London, England.

Victoria, largest dry spot on the beer map of British Columbia, may vote again shortly on the question of beer parlors.

With labor unrest spreading throughout northern France, a general strike of textile workers in Roubaix and Halquin was called, affecting nearly 100,000 people.

The gross earnings of the Canadian National Railways for the ten-day period ending July 31, were \$6,519,504 as compared with \$8,224,994 for the corresponding period of 1929, a decrease of \$1,705,490.

Because he finds England more inspirational to poetry, Conrad Aiken, well known United States poet, has sailed for England, possibly to remain the rest of his life. He won the 1930 Pulitzer award for the best American verse of the year.

Mr. Macaulay has appeared in the British House of Commons in a suit of Shantung silk, courageously giving a lead to drably dressed politicians, says writer in *The Guardian*. In 18th century Parliaments, the attire of members must have made the House of Bute fear of color.

For production of all European news will include talkies made in the Arctic regions. A German-Swedish company will use dog-sleds and a specially fitted steamship in carrying the first sound-film cameras ever to penetrate the Arctic Circle.

In the presence of thousands of citizens and visitors, Sudbury recently celebrated its entry into cityhood. Decorated floats paraded for an hour through the streets. Hon. Charles McRea, Minister of Mines for Ontario, presented the charter bearing the seal of incorporation.

The German aviators, Birth and Weller, who reached Iceland on an attempted flight from Germany to the United States, have abandoned their project and Birth sailed for Montreal with their small monoplane. His companion will take the next ship back to Germany.

Nationalize Coal Mines

Drastic Steps In British Coal Mining Industry Are Planned

Rt. Hon. William Graham, President of the Board of Trade, in a speech at Durham, England, said the recently passed coal bill was a Parliamentary step along the road which the British Government intended to follow until the great coalfields were entirely in the hands of the people. His audience expressed large interest, welcomed the sentiments expressed. "We are pledged as a Government to nationalize the mining royalties, and we hope the time will be found in the next session for that bill," Mr. Graham said.

Must Wear Home Products

A new law has been passed in Persia, similar to certain laws passed in England a few centuries ago, compelling every government official, from the highest to the lowest, to wear clothes made of Persian manufacture only. Severe penalties are to be meted out for every infringement of this law.

"You paid for your dinner yesterday, sir, but you forgot the waiter." "Oh, should I have eaten him?"

Interesting Exhibits

Floating Museum Of Byrd's Antarctic Expedition

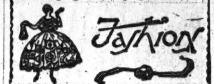

The City of New York, flagship of Rear-Admiral Byrd's Antarctic expedition, is to go on tour as a floating museum of the Antarctic. An exhibition will be charged to the public in an effort to overcome the expedition's deficit of more than \$100,000, which continues to mount because of the expense involved in assembling the scientific material brought back by the expedition.

Announcement of the move came from Captain Ashley C. McKinley, in charge of the expedition's affairs in the absence of Admiral Byrd. The ship will go on exhibition at the Ninety-sixth Street pier in the North River, and will be open to the public from 10 a.m. to 10 p.m. On leaving New York it will go to Boston, other New England cities and will then proceed south along the Atlantic seaboard.

"More than a month has been spent in assembling the models and exhibits built by the expedition members during the Antarctic night," Captain McKinley said. "When open to the public the ship will contain the most complete exhibition of Antarctic specimens ever gathered, as well as hundreds of other souvenirs of the expedition."

There will be a model of Little America, constructed to scale, the American Museum of National History; models of the Floyd Bennett, the airplane used in flying over the South Pole; models of other expedition planes; a model of the City of New York and a replica of a camping scene showing one of the exploration parties.

Aviators Have Trying Trip

Combat Engine Trouble While Flying North Of Port Churchill

After combating engine trouble north of Churchill, making emergency repairs and carrying out their mission two Royal Canadian Air Force planes are back at their base at Coppermine Lake, Northwest Territories. The officers are E. Hickson, flying a Fairchild, and B. Barclay, flying a Bellanca. They conveyed A. E. Porsild, Federal government official, to the far north to collect data on reindeer pasture.

According to reports from Churchill, the officers were flying about 10 miles north of Eskimo Point on Hudson Bay and about 80 miles south of Chesterfield Inlet when a cylinder locked on the Fairchild. They dropped down in the sea.

The men said, "We were flying northern waters so nearly that we could not afford to make a water landing if they could make water. They managed to get off the water and limped through the air, finally coming down at Avavane, a small trading post, and base of operations of Dominion Explorers. Avavane is about 100 miles from Eskimo Point. Their destination was in the "barrens" about 150 miles west of Avavane. At Avavane they met Alex Nicholson in charge of Dominion Explorers plane. He helped them with spare parts and they flew out into the barrens.

Long Telephone Call

Radiophone Conversation Between South America and Australia

Advice received at New York from Buenos Aires describe a radiophone conversation between Captain Lewis Yancey in an aeroplane and Sydney, Australia, connection, which was made from the plane, 5,000 feet above the Buenos Aires airport, established a distance record for telephoning from an aeroplane in flight. It spanned 14,000 miles.

The call was relayed from the radio station at Buenos Aires to Madrid, Spain, thence over land lines to the French side of the English Channel, where submarine cables carried it to England. At Rugby the beam wireless picked it up for wireless transmission to Sydney.

Accepts Vice-Presidency

Lady Willingdon Takes Interest In Canadian Branch Of Dr. Barnardo's Homes

Her excellency Lady Willingdon has accepted the honorary vice-presidency of the Canadian branch of Dr. Barnardo's Homes, it was announced by the Canadian headquarters of the organization.

Lady Willingdon is a daughter of the late Lord Brassey, the latter being president of the Barnardo's Home organization in England at the time of her birth, and a great personal friend of the late Dr. Thomas John Barnardo. Her father took a keen interest in the migration of boys and girls to Canada.

Recipes For This Week

(By Betty Barclay)

SNOW-TOPPED SALAD

On a bed of crisp lettuce leaves arrange a mound of fruits of various kinds, cut in small pieces. Oranges, pineapples, apples, grapes and peaches are excellent. Berries in season, or small cubes of watermelon or cantaloupe, may also be utilized. Top this with a liberal serving of stiffly beaten, sweetened whipped cream. Immediately before serving, sprinkle the fruits and lettuce base, liberally, with a syrup made by dissolving four teaspoons of sugar in the juice of two oranges and one lemon.

SWEDISH SPRITZ COOKIE

1 cupful sugar.
1 cupful butter.
2 eggs.
4 cupfuls flour.
 $\frac{1}{2}$ cupful baking powder.
Cut sweet almonds.

Mix all ingredients together in bowl, after adding powder with flour. Mix with the hands until ingredients are blended, being careful not to work too long. Push through pastry gun. Shape in rings or S shapes. Bake in a quick oven.

Dog's Name In Phone Directory

Pussey Willow, Thornton, an aristocratic bulldog, has a telephone listed in her own name, it was revealed in Chicago. A few lines above Pussey Willow's name will be found the name of Mrs. B. Thornton, the dog's mistress. Mrs. Thornton's theory is that animals are as human to people and therefore have a right to be listed in the telephone directory.

It's strange that a motorist never remembers he used to be a pedestrian.

Claims Matter Is Weightless

Scientist Gives New Definition Of Weight and Force Of Energy

After delving into philosophical questions as a hobby from a very early age, W. Donald Mitchell, under the nom de plume of "Logus Philomus," has published "The Great Light of Relativity."

Golden Text: "Wherefore let him that thinketh be stablished take heed lest he fall." —I Corinthians 10:12.

Explanations and Comments

God's Will Regarding Saul Revealed

To Samuel, I Samuel 9:15-20, "Samuel, the man of the Bible, explains literally 'uncovered the ear of' and signified the divine Spirit's presence."

The revelation which Samuel received the day before Saul's arrival that a man of the tribe of Benjamin would come to him to be king, was psychically based on his constant prayerful, expectant reflection as to how God would end his need.

When Samuel saw Saul he asked him whether Saul were the Benjaminite whom he had been told, and felt certain that Saul was to be the man of God to be the leader of His people.

"God's voice is of the heart—I do not say All voices thereof are of the heart are God's."

God to discern the voice amidst the voices Is that hard task that we are born to.

The Meeting Of Saul and Samuel, 9:15-26.—In search of his father's asses (9:1-7), Saul sought the aid of the "High Priest" where he went to offer sacrifice. Samuel at once set the young man's mind at rest regarding the lost animals telling him they had been given to him by God.

The young man, however, was still anxious about his lost asses, and Samuel assured him that Saul's heart was over his eyes, and that Saul was to be the man of God to be the leader of His people.

In astonishment, Saul answered,

"Am I not a Benjaminite, the smallest of the tribes of Israel, and am I not the youngest of the sons of my father?" Whereupon then speaketh thou to me after this manner?

This extravagant expression of humility was not in accordance with Eastern custom, but, as Alexander Whyte thinks, it seems to be the language of a man whose heart is really in the right place, and who is in touch with divine grace. It is real humility.

The Anointing Of Saul, 9:27 to 10:1.—As they were leaving the city of Gath, the servant of the High Priest followed them, carrying the oil of anointing, and the servant ran ahead and anointed Saul on the forehead.

At the moment when the oil of anointing was applied, Saul fell into a deep sleep, and when he awoke he found the priest standing over him.

The second is that of an adolescent male, Dr. Black, said, and the measurements further indicated the first skull was that of a girl.

Grape Juice Duty

Special Tariff Item Designed To Meet Foreign Competition

A special issue of the Canada Gazette announces that an order-in-council has been passed bringing into effect the special tariff item designed to meet foreign competition in concentrated grape juice. Grape juice previously was all under one tariff of 25 cents per gallon, with a deduction of 1 cent for each gallon of juice. An increase in specific gravity above 1.074, it comes into immediate effect.

Please any man where he has no installment payments, no taxes, no stock leases and still he'll save the bars to get out.

We think we're a smart people but

it takes half a century for salesmen to learn not to ask the woman customer what size shoe.

SUNDAY SCHOOL LESSON

AUGUST 17

SAUL "A MAN OF GREAT POSSIBILITIES WHO FAILED"

Golden Text: "Wherefore let him that thinketh be stablished take heed lest he fall." —I Corinthians 10:12.

Lesson: "He that believeth not shall be condemned." —John 3:18-21.

Devotional Reading: Psalm 1.

Explanations and Comments

God's Will Regarding Saul Revealed

To Samuel, I Samuel 9:15-20, "Samuel, the man of the Bible, explains literally 'uncovered the ear of' and signified the divine Spirit's presence."

The revelation which Samuel received the day before Saul's arrival that a man of the tribe of Benjamin would come to him to be king, was psychically based on his constant prayerful, expectant reflection as to how God would end his need.

When Samuel saw Saul he asked him whether Saul were the Benjaminite whom he had been told, and felt certain that Saul was to be the man of God to be the leader of His people.

"God's voice is of the heart—I do not say All voices thereof are of the heart are God's."

God to discern the voice amidst the voices Is that hard task that we are born to.

The Meeting Of Saul and Samuel, 9:15-26.—In search of his father's asses (9:1-7), Saul sought the aid of the "High Priest" where he went to offer sacrifice. Samuel at once set the young man's mind at rest regarding the lost animals telling him they had been given to him by God.

The young man, however, was still anxious about his lost asses, and Samuel assured him that Saul's heart was over his eyes, and that Saul was to be the man of God to be the leader of His people.

In astonishment, Saul answered,

"Am I not a Benjaminite, the smallest of the tribes of Israel, and am I not the youngest of the sons of my father?" Whereupon then speaketh thou to me after this manner?

This extravagant expression of humility was not in accordance with Eastern custom, but, as Alexander Whyte thinks, it seems to be the language of a man whose heart is really in the right place, and who is in touch with divine grace. It is real humility.

The Anointing Of Saul, 9:27 to 10:1.—As they were leaving the city of Gath, the servant of the High Priest followed them, carrying the oil of anointing, and the servant ran ahead and anointed Saul on the forehead.

At the moment when the oil of anointing was applied, Saul fell into a deep sleep, and when he awoke he found the priest standing over him.

The second is that of an adolescent male, Dr. Black, said, and the measurements further indicated the first skull was that of a girl.

No Loss From Pool Guarantees

Wheat Pool Did Not Have To Call On Government For Relief

A special despatch to the Toronto Mail and Empire from Ottawa says:

"...spared no less trouble than the chief statistician of the Canadian Wheat Pool's selling headquarters in Winnipeg, government authorities in Ottawa have received the cheering information that the prairie provinces have incurred no loss from their guarantees of the Wheat Pool's operations."

"Early in the year, when it became apparent that Canada was not going to be able to market her whole crop and that the market price had suffered a severe slump, the prairie governments put aside a sum of money to cover the loss of the Wheat Pool's advances to the prairie provinces,"

"According to information supplied to the Dominion government, there has been no loss. The pool's crop year ended July 18, 1930. Everything transacted from July 18 onward is part of the 1930 pool. Compilation of the final returns of the 1929 pool is under way, and has progressed far enough to reveal that the pool sold enough wheat above the dollar price to at least compensate for the quantity which was to be sold below that mark."

"Leaving the provincial guarantees unclaimed."

"Andrew Cairns, statistician for the pool, was in Ottawa several days ago securing passports and making preparation for a trip to Russia. He has now departed for that country for the purpose of surveying at first hand the state of wheat growing in the land of the Soviets and determining to what extent Russia is looming as a serious factor in European export wheat supply. Mr. Cairns informed the government of the situation in regard to the guarantees, which he said, would now expire."

Mediterranean Service

Inauguration Of A New Monthly Service

Inaugurating the new monthly service from eastern Canadian ports to Gibraltar, Malta, and other Mediterranean ports, the "David Livingstone" will sail from Montreal on or about September 10. This will follow about October 10 by the S.S. Benguela.

The new service, according to the Department of Trade and Commerce, will consist of special motorships, equipped for cargo and accommodation for 10 or 12 passengers. Owing to the absence of a train steamer service between these ports and Montreal or Halifax, Canada has not been able to share in these markets to any extent in the past.

New York now has four airplanes for its police patrol, which will watch out for law-breaking from the vantage point of the air.

The pimento tree, a Jamaica native, is the source of allspice.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and live stock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Eleven O'clockishness

Catch that twinkle in Bobby's eye? It's time to drink his milk—how he relishes it! And how his milk nourishes Bobby—and puts that sparkle in his eyes! It's Nestle's Evaporated Milk—the milk that has put a sparkle in the eyes of thousands of Bobbys.

And here's the Reason! Nestle's Evaporated Milk is just the right consistency to put the water out of the milk, then seal and sterilized in airtight containers. Add water again and you have absolutely pure, safe milk—but more easily digestible than ordinary milk because the large fat globules are broken down into smaller ones, and of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestle's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestle's Evaporated Milk for Your Baby. Use it in coffee—in cereals—in tea. Use it in all cooking and as a beverage by diluting with one to two parts water.

James Ashworth, former general manager of the Crows' Nest Pass Coal Company, died at Jacksonville, Fla., on July the 25th, aged 86.

Mr. and Mrs. Knapman, accompanied by their daughter Elsie, left last week end on a vacation trip to coast points, via Spokane and Portland.

Father Harrington, of Blairmore, and Father Lehman, of Coleman, are enjoying a two weeks' motor trip to Vancouver and intermediate points.

Mr. T. Ede, one of the oldest residents of the Crows' Nest Pass and city magistrate of Calgary in the very early days, is confined to his home through the weight of waning years.

The endurance flyers, Dale Jackson and Forest O'Brien, are still in the air near St. Louis, having already broken the world's endurance record. Their objective is set at 1000 hours in the air, or about six weeks.

Charlie Conners, of Bellevue, who won the provincial marathon championship at Edmonton, will travel to the British Empire games at Hamilton, being the second athlete from the southern section of this province chosen to travel east.

Harry Stubbs and Pat Dujay are among the more recent to return on a visit to the old haunts of Hillcrest and Bellevue. The former, in the course of his two years or more of absence, has visited countries as far away as India, and is said to be looking exceedingly well.

IN MEMORIAM

HADWELL

In loving memory of dear Arthur, the darling son of Mr. and Mrs. Tom Hadwell, of Blairmore, who entered the Home Land, August 13th, 1929.

"Our Treasure in Heaven."

Ever in memory, thought and love.

IN MEMORIAM

In loving memory of our darling boy, Edward William Elliott, who died in Blairmore on August the 14, 1928.

"In a graveyard softly sleeping,
Where the flowers gently wave,
Lie those we loved so dearly
In his lonely, silent grave."

God has taken home our darling.
Placed our bud among his flowers—
Taken back the one he left us
To a better home than ours.
Lovingly remembered by Daddy,
Mamma and Jean, Kimberley, B.C.

People are of Two Sorts

—Peace-makers, trouble-makers

So are foods. Some irritate and inflame the digestive tract. Others bring peace, harmony, contentment.

MOTHER'S BREAD

is the great tranquilizer. It soothes and nourishes. Why? Because it is nature's complete ration, representing all food and no waste. Build your meals upon it.
